Bowden-Jones.

The home of Mr. and Mrs. George Williamson on Vinton avenue was the scene of a beautiful wedding on Wednesday afternoon, when their niece, Miss Mary Ruth Bowden, of Holdenville, Okla., became the bride of the Rev. Robert Stanley Jones, of Murray, Ky.

A bower of palms and ferns made an artistic setting for the ceremony, which took place at 4 o'clock, the Rev. E. B. Taylor, or Murray, Ky., o'fficiating.

Mrs. James L. McRee rendered an exquisite vocal number preceding the marriage service, and Miss Katherine Keppel presided at the piano, playing Mendelssohn's wedding march as the processional and "Traumerel" during the ceremony.

#### BIG TATE COUNTY CANAL IS NEARING COMPLETION

COLDWATER, Miss., July 21. (Spl.) COLDWATER, Miss., July 21. (Spl.)—
The Hickahaia drainage canal is nearing completion after three years of
work. The big dredge boat is now
working just west of town, and less
than a mile of the canal remains to be
cut. The big dlich is 40 feet wide and
about 15 feet deep. It will empty into
Coldwater river about two miles west of

Hickahala creek is the largest stream Hickahala creek is the largest stream running through Tate county and the old channel has been almost filled up for several years, which resulted in flooding thousands of acres of the best farming lands in the county. Since the upper portion of the canal was completed these overflows have been of rare occurrence, and then the flood waters would run off within a few hours.

hours.

The dredging has been done by the Tupelo Drainage company, of Tupelo, Miss, and many difficulties and delays have occurred. Shortage of labor and breakdowns have combined to delay the progress of the work for weeks at a time, and the company is said to have suffered heavy financial losses on the enterprise.

Starting at a point near Thyattra in the eastern portion of the county the canal has been cut for more than 20 miles, much of the way being through a heavy timbered section, where vast quantities of dynamite were required to blow out the stumps. Large dams were necessary wherever the new channel crossed the old creek run, and these would sometimes be carried away by floods.

## An Investment That Pays 100% in Refrigerating Economy

TPHE cost of operating a refrigerator in your home is not entirely how little ice it uses, but also how much food it saves or spoils-how pure and sweet it keeps-how thoroughly it safeguards family health.

Many people cover the ice with papers which prevents melting, but you can't keep your refrigerator thoroughly cold without melting ice any more than you can run a motor car without using the gas.
